Envitech Energy Enlists Nuage Marketing for Marketing Services

Montreal, QC--(May 12, 2010) Nuage Marketing Inc., an independent full-service marketing company specializing in high-technology, today announced that it is working with Envitech Energy to help the company with its marketing efforts within the transportation, environment, utilities and mining industries.

Envitech Energy Inc., previously a division of Envitech Inc., has recently become an independent entity and as such, requires the creation of its own web site, marketing materials, and marketing communications. In an effort to increase the overall awareness of the company, Envitech Energy has selected Nuage Marketing to provide a full range of marketing services including web site design, editorial outreach, and the creation of new marketing collateral such as customer success stories.

“Within a few weeks of working with Envitech Energy, we helped them launch a new updated website, www.envitech.com, and announce that its electric traction power substations will power the environmentally friendly Olympic Line streetcar, that will transport more than 15,000 Vancouver residents, visitors, and athletes during the 2010 Winter Olympic Games,” said Nicole Faubert, President of Nuage Marketing.

“Nuage Marketing understands our objectives and needs. They go the extra mile to make sure that we get what we need,” said Steve Roy, Vice President, Commercial Operations and Engineering at Envitech Energy. “We look forward to continue working with Nuage Marketing for future marketing services as we continue to grow our business,” Roy added.

About Envitech Energy

Envitech Energy is a worldwide leader in environmentally friendly energy solutions for the urban transit industry. Providing a complete line of traction power substations (from high voltage switches to feeders), including a selection of electronic power control devices (Traction Rectifiers, Wayside Energy Storage, Automatic Grounding Switches (AGS), and Automatic Assured Receptivity Units (AARU)), Envitech Energy offers a wide range of railroad electrification solutions.

As specialists in electrical power conversion and automation, Envitech Energy also provides renewable energy power converters and control systems for many applications, including power converters and controls for hydro and wind turbines, solar panels and diesel-powered generators.

Envitech Energy is headquartered in Pointe-Claire, Quebec Canada. Additional information is available at <http://www.envitech.com> .
